

## MAKES APPEAL FOR BIRD LIFE

Dr. Paul Tells Scouts of Benefits of the Feathered Friends

That Ogden and other cities in the Rocky Mountain region will be washed out by floods in the next fifty years is the opinion of Dr. J. H. Paul of the University of Utah, who addressed the members of the scout leader classes at the Weber Normal college last night. In his address, Dr. Paul stated that this would be brought about indirectly by the lack of protection of birds in this section of the country.

The killing of the birds removes the insect destroyers which injure the trees, according to Dr. Paul. In his address he stated that one Chickadee would save thirty forest trees in any part of the country.

"Ogden especially is threatened with floods unless the people take precautions to protect the birds," said Dr. Paul. "Emerson Hough, the great writer also has made a statement that this city and others in this section would be wiped out within the next fifty years. All possible protection for birds should be given and if Ogden citizens would lend a hand in this work, the life of the bird would be protected forever."

Scout demonstrations, games, rope tying, songs and other features ruled at the session last evening. The program for this evening is as follows:

- (a) Flag.
- (b) Invocation.
- (c) Roll (answer by giving names of birds, trees, animals, Ogden industries, Ogden points of interest).

## Shoplifting in Local Stores Shows Decline

Shoplifting in Ogden stores has been greatly decreased during the past week through the activities of the campaign which is now on among the merchants to eliminate the illicit practice in the city, according to the results of a survey completed today by Miss M. Stewart of the merchandising credit rating bureau of the Ogden chamber of commerce who is directing the drive.

Not since the campaign has been on has there been a shoplifter caught within the city. It was announced, although intensive watch has been kept by additional store detectives and other methods for bringing a halt to the "lifting" activities. Although the merchants feel gratified over the results of the campaign, no slackening in the work will come until after the holidays, it was said. During the great rush during the pre-holiday period, additional methods are to be employed to prevent stealing, according to the announcement.

It is believed that through the campaign many professional shoplifters are giving Ogden a wide berth, for the past weeks has shown a great decrease in thefts. Before the campaign was organized merchants here were reported to have been losing hundreds of dollars in merchandise each week.

## Try This if You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.
